

TIMUR JALILOV BSc COMPUTER SCIENCE

SHEPHERDS BUSH, LONDON | 07474856716 | TIMURJALILOV1@GMAIL.COM

Recently graduated highly motivated individual with knowledge in JavaScript, C++, C#, HTML5 and CSS. With experience in creating applications and websites alone and working within a team. Able to pick up new skills efficiently when working with programming languages and development tools e.g. GitHub. Extremely passionate about technology, currently developing a responsive website using the latest web development tools like HTML5, CSS and JS and running a YouTube channel dedicated to technology.

SKILLS

- Java
- C++
- JavaScript
- HTML5
- C#
- CSS

QUALIFICATIONS

BSc COMPUTER SCIENCE | CITY, UNIVERSITY OF LONDON

2016 - 2020

My time at university provided me with experience in multiple subjects, particularly excelling in the Group Project, Programming in C++, Functional Programming, and Individual Project. Working on the Group Project provided me with knowledge on how to collaborate with others through GitHub, learn people's strengths and weaknesses and allocate tasks accordingly.

Functional Programming taught me the basics of functions in almost every language and lay the foundation to all my skills in C++, C#, Java, and JavaScript. Learning C++ taught me practical uses for the language and gave me foundational understanding of other languages that I would go on to learn myself.

My favourite and most challenging undertaking was the personal project, I decided to learn Unity game engine and C# to create a procedurally generated game, I was able to successfully create the game and pass my project without any prior knowledge on the subject, along the way I discovered the best methods of teaching myself, self-discipline which I used to learn JavaScript, HTML5 and CSS and create my own website.

CAMBRIDGE TECHNICALS IT LEVEL 3 | Highbury Grove Sixth Form

2014 - 2016

This course provided a valuable foundation for my upcoming years at university, being able to grasp subjects such as Business in IT, IT Security, Ethics in IT and E-commerce, among others. I was able to achieve the highest grade available which is three Distinction*.

GCSE | Highbury Grove School

2010 - 2014

Finished school with 8 GCSEs including English (B), Maths (B) and Science (A).

WORK HISTORY

Supervisor | Event Exhibition Partnership

2016 – 2020

Working as a steward supervisor alongside my university course. Being responsible for a team of five to fifteen individuals allocating tasks, monitoring their performance, providing support, and reacting quickly to any changes and adapting. Helping coordinate safety and security for major events such as Hyde Park Winter Wonderland and Royal Ascot.
